### DETAILED ACTION

1. Claims 5 – 7, 9 and 14 – 16 are presented for examination.

#### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 5 – 7, 9 and 14 – 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Jawahar et al. U.S. Patent No. 6298356 (hereinafter Jawahar).
4. Referencing claim 5, as closely interpreted by the Examiner, Jawahar teaches an information terminal support server which supports collaboration of a browser loaded on a customer-side information terminal and a browser loaded on an agent-side information terminal, the information support server comprising:
  5. (a) a rule definition part including a condition setting part and a command setting part, (e.g. col. 21, lines 18 – 44, “...*client requests are re-directed through the session host...*”);
  6. (b) a rule control manager for monitoring, at the information terminal server, HTTP messages sent in response to customer-side browser requests, (e.g. col. 8, lines 25 – 40, “*filter*” & col. 22, lines 4 – 30, “*conditions, filter*”);
  7. (c) an HTTP checker, determining whether or not said HTTP messages agree with a condition of said condition setting part of said rule definition part, (e.g. col. 7, lines 53 – 65 & col. 13, lines 10 – 53, “*modified to include information about the customer*”);

Art Unit: 2143

8. (d) an HTTP editor, editing contents of said HTTP messages according to contents of said command setting part of said rule definition part, when said HTTP messages agree with a predetermined condition, (e.g. col. 18, line 56 – col. 19, line 2, & col. 12, lines 4 – 32);

9. (e) customer cache storing of said HTTP messages in an unedited form sent to the browser on the customer-side information terminal, (e.g. col. 18, line 56 – col. 19, line 2, & col. 12, lines 4 – 32); and

10. (f) agent cache storing of said HTTP messages in an edited form sent to the browser on the agent-side information terminal, (e.g. col. 7, lines 53 – 65 & col. 13, lines 10 – 53).

11. Referencing claim 6, as closely interpreted by the Examiner, Jawahar teaches editing is carried out to insert a command for a client program loaded on the agent-side information terminal, (e.g. col. 10, lines 1 – 18, “*synchronization*” & 19, lines 11 – 50, “*POST*”).

12. Referencing claim 7, as closely interpreted by the Examiner, Jawahar teaches said command is one of “form submit prohibition”, “form alteration prohibition”, “concealment of specific form” or “concealment of specific field”, (e.g. col. 18, line 56 – col. 19, line 50, “*URL sharing may be undesirable or impossible if the customer request includes information that is not or should not be readily available to the agent. An HTTP client request includes a method or command that describes the action to be taken on the URL by the server. One such method is the POST method. The POST method enables a customer-client to communicate additional information other than the URL to the server.*”).

Art Unit: 2143

*other than the URL to the server.").*

12. Claims ~~9, 14-16~~<sup>9, 14-16</sup><sub>D2</sub> are rejected for similar reasons as stated above.

### *Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David E. England whose telephone number is 571-272-3912. The examiner can normally be reached on Mon-Thur, 7:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David A. Wiley can be reached on 571-272-3923. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
